

SUMMARY OF EXAMINER INTERVIEW

Applicants would like to thank Examiner Hossain for participation in an interview on August 6, 2009. During the interview, the 35 U.S.C. § 103 claim rejections were discussed including the Glass, Kirsch, and Seifert references. The Applicants' representative and the Examiner discussed possible claim amendments to overcome the 35 U.S.C. § 103 claim rejections. The discussed amendments appear to overcome the cited references, but a further search and/or analysis may be required to make a final determination.
